Yealink W70B Base Station Compatibility

Handset / Base Firmware Version		W70B V85
W56H	V85	Fully compatible
W53H	V85	Fully compatible
W59R	V85	Fully compatible
W73H	V85	Fully compatible
CP930W	V85	Fully compatible
CP935W	V86	Fully compatible
DD Phone(T41S/T42S+DD10K)	V85	Fully compatible
DD Phone(T54W+DD10K)	V85	Fully compatible
RT20	/	Negative
RT30	/	Fully compatible All Features

Yealink W80 Base Station Compatibility

Note: The W80DM/W80B must work with the W56H/W53H/CP930W/DD phone handset running a specific firmware version. When you register an older handset (not multi-cell version) to the base station, the handset firmware will be automatically upgraded to a matched one.

Handset / Base Firmware Version		W80 V83
W56H	V85	Fully compatible
W53H	V85	Fully compatible
W59R	V85	Fully compatible
W73H	V85	Partly compatible
CP930W	V85	Fully compatible
CP935W	V86	**Basically compatible**
DD Phone(T41S/T42S+DD10K)	V85	Fully compatible
DD Phone(T54W+DD10K)	V85	Fully compatible
RT20	/	Negative
RT30	/	Negative

Yealink W90 Base Station Compatibility

Note: The W90DM/W90B must work with the W56H/W53H/CP930W/DD phone handset running a specific firmware version. When you register an older handset (not multi-cell version) to the base station, the handset firmware will be automatically upgraded to a matched one.

Handset	Base Firmware Version	W90 V85
W56H	V85	Fully compatible
W53H	V85	Fully compatible
W59R	V85	Fully compatible
W73H	V85	Partly compatible
CP930W	V85	Fully compatible
CP935W	V86	**Basically compatible**
DD Phone(T41S/T42S+DD10K)	V85	Fully compatible
DD Phone(T54W+DD10K)	V85	Fully compatible
RT20	/	Negative
RT30	/	Negative
