Bound device information

Device	Version	IP Address	Protocol	Status
Meetin...	120.351.1000.5	183.251.103...	APL-SIP	Offline

Room Connector

Limit the concurrent calls of 3rd party hardware endpoint and unregistered Yealink VC endpoint in your Enterprise.

One room connector allows one 3rd party hardware endpoint or unregistered Yealink VC endpoint to join Yealink Meeting via H.323/SIP protocol at the same time.
