

Mountera® S 4/8 Extension Kit

Mountera® extension set for mounting a Mountera® housing (Panomera® S/W, PTZ) on the bottom of a Panomera® S4 or S8

The innovative Mountera® Quick-Lock System is a completely new concept for quick and easy installation of the latest camera and Panomera® systems. The Mountera® system consistently continues the elegant design line of the camera systems, allowing visually appealing and yet robust installations without visible cables. The comprehensive system offers a wide range of mounting options and, in combination with the power supply or recording on site, it is also attractive for its discreet installation that is reduced to the essentials.

Function

The Mountera® S 4/8 Extension Kit is an extension set for the Mountera® housing of a Panomera® S4 or S8. It enables the mounting of a further Mountera® housing (Panomera® S/W, PTZ) at the bottom of the Panomera® S4 or S8.

Cable Routing

The optically attractive Mountera® design is maintained by a continuous internal routing of cables and safety rope. The second LAN interface of the upper Panomera® can be used to loop through the Ethernet connection.

Load Capacity

The Mountera® S 4/8 Extension Kit is dimensioned with a load capacity of 25 kg for the connection of an additional Mountera® housing (Panomera® S/W, PTZ).

The Mountera® mounts (Wall and Ceiling Bracket) have been tested with regard to wind load and load capacity in this combination. When using original Dallmeier accessories (Extension Kit with additional housing), a load of up to 50 kg is permissible.

(Example - Panomera® S8 with Panomera® W8)

Scope of delivery

- Mountera® Ball Joint 15°
- Mountera® Sleeve large (Panomera® S4/8)
- Mountera® Sleeve small (PTZ and Panomera® W4/8)
